

As the Purchaser(s) of Interment Right Plot(s) in the Murphys Cemetery District I/we understand that a burial must be made into the plot(s) within 10 years of the purchase date or the plots will revert back to the Murphys Cemetery District, unless the Murphys Cemetery District renews the interment rights.

If the person owning the unused interment right plot(s) is still be residing in the Murphys Cemetery District at the end of the ten year term, the reservation shall automatically be renewed for another ten years at no charge and this privilege will continue as long as the original purchasers remain as residents of the Murphys Cemetery District.

If, at the end of any ten year term, the person(s) who purchased the interment right plot(s) does not reside in the Murphys Cemetery District and has not paid property taxes in the Murphys Cemetery District for a continuous five year period during those immediately preceding ten years, the plot(s) will revert to the Murphys Cemetery District with the original purchaser receiving the purchase price paid minus the Endowment Care Fund fee. The cost of any curbing or improvements done to the plot will not be reimbursed.

No cemetery plot may be sold or transferred to another person in any manner and any plots that the purchasers do not intend for their own interment must be sold back to the Murphys Cemetery District at the originally paid cost minus any Endowment Care Fund fee that might have been paid.

If I am the purchaser of pre-need interment right plot(s), I agree to notify the Murphys Cemetery District promptly of any change of address and understand that moving out of the boundary of the Murphys Cemetery District may make me/us ineligible for continued ownership of any unused interment right plot(s) in Buena Vista Cemetery.
